

REMARKS

The Applicant thanks the Examiner for allowing claims 1-3, 6, 53-55, and 58-65.

The Applicant has cancelled claims 67-68 so that a patent may be issued quickly. However, the Applicant does not agree with the Examiner's statement that claims 67-68 are not enabled and definite. The Applicant submits that claims 67-68 are definite and supported by, for example, page 43, line 20 to page 45, line 9 of Applicant's specification.

Any circumstance in which the applicant has addressed certain comments of the examiner does not mean that the applicant concedes other comments of the examiner. Any circumstance in which the applicant has made arguments for the patentability of some claims does not mean that there are not other good reasons for patentability of those claims and other claims. Any circumstance in which the applicant has amended or canceled a claim does not mean that the applicant concedes any of the examiner's positions with respect to that claim or other claims.

Please apply any charges or credits to deposit account 06-1050, reference 09857-022001.

Respectfully submitted,
